## Press Release

### Formtek showcases three machines at Fabtech

The Formtek Group of companies which includes Cooper Weymouth-Peterson (CWP), B&K, Dahlstrom Industries, Engel, Hill Engineering, Iowa Precision Industries, Lockformer, Rowe, and Yoder Manufacturing, will showcase three machines at the Fabtech show in November at booth #10029:

- The 2DWR – a high speed line to produce drywall framing products
- The B&K Leveler – designed for precision coil strip flatness and shape correction
- A 30-ton hydraulic press – high speed in four tonnage ranges (7,12,20 & 30), stroke range ½” to 3”.

See these and all Formtek Group production systems at booth #10029.
